

PRAYERS FOR SUPPRESSION OF REBELS

Mexico Admits Inability of
the Army to Put Down
the Revolt.

REBELS HOLD A PACIFIC SEAPORT

Mexico City, Mex., Dec. 9.—In obedience to a papal decree there began last night at midnight in every Catholic church throughout the republic, a special mass for divine intervention in Mexico. In St. Peter's, at Rome, at the same hour, or 6 o'clock Rome time, this morning, the pope himself joined in the prayers for the restoration of peace.

Mgr. Bogliani, the apostolic delegate, officiated in the church of Guadalupe, where a service of unusual solemnity was held, although the services in the cathedral were almost equally impressive.

Church Appeals To

That the revolution in Mexico has resulted in conditions so bad that, something more than human agencies is necessary to right them appears to be indicated, not only by the prayers of the rebel operations, but by the action of the secretary of the interior, Rafael Hernandez. The secretary recently summoned Mr. Bogliani and appealed to him to use the power of the church to assist in restoring order. The secretary requested that the pope issue a decree to that end.

The liberals construed the act of secretary Hernandez as being not in line with the laws respecting the separation of the church and the state and are considering the expediency of interpellating the government in the chamber of deputies.

Army is insufficient. Secretary Hernandez also has admitted that the army is not nearly large enough to suppress the rebellion and small towns. In reply to requests from these quarters he has sent the following note:

The government is making almost unaided efforts to suppress the rebellion, but to succeed in all demands would require an army of half a million. The government is unable to maintain the chambers of commerce and other similar organizations throughout the country, to appropriate money to maintain bodies of volunteers, whom the government will equip with rifles and ammunition, but it is unable to equip the government would expect those paying these volunteers to furnish the arms and ammunition furnished will not fall into the hands of the rebels.

Rebels Not Being Subdued. According to official reports, the rebels in a number of attacks during the last three days around Tamasopo, in the state of Mexico, lost 225 men. The federal loss is not given and minor successes in other regions are reported. According to official reports, however, the rebels are winning many successes and there is no doubt that they are in control of the north and east region of the state of Guerrero, while they are fully holding their own in the south.

There is less disposition in official circles to belittle the movement in the north, where the remnants of the army are showing more evidence of concerted action. The rebels are probably in control of northern Durango. The latter has burned all bridges on the Rio, which is captured, and Casa Blanca, south of which a force of the rebels has been reported in the last few days has raided 14 haciendas in connection with these attacks, stories of destruction and atrocities are common.

Rebels Hold Pacific Port. The rebels on the Pacific coast of the state of Guerrero are said to have acquired a little port south of Acapulco, from which point they are shipping to the interior ammunition and supplies which they receive there. These rebels are commanded by Andrew Almazan.

The general situation is best defined by explaining that the government is in control of the big towns and many of the smaller places, but practically all of the most fertile and richest towns, while the highways are at the mercy of the rebels. Residents of the towns say it is not safe to ride outside the city limits.

Rebels Exact Tolls.

While it is no secret that Mexicans and foreigners alike in numerous instances are paying the rebels periodically for immunity, it is not always given. A report that the El Paso Junta has named Flores Magón as its representative in refusing to allow the extradition of John D. Archibald and other Standard Oil magnates to Texas in the Waters-Pierces Oil company indictment, unless Wickersham rescinds from his position. MORMONS TO LOCATE WILL BUY 7000 ACRES OF LAND COLONY AT ARNO, TEX.

Pecos river property, valued at \$200,000 is to be bought by the Mormon refugees from Mexico upon which they will establish a colony, O. P. Brown says. He has returned from the Pecos river district and has arranged for the purchase of 7000 acres of land 25 miles from Pecos City, at Arno, Tex. The price paid for the land was from \$25 to \$50 an acre, depending upon its condition. It is expected that many of the Mormon colonists will establish their homes there. Mr. Brown, who was business agent of the Mexican state, will leave this week for Salt Lake to present the project to the Mormon church officials.

IF CONFLICT COMES, EVERY MAN AND WOMAN, YOUNG OR OLD, WILL FIGHT.

Belgrade, Servia, Dec. 9.—The accumulation of Austrian troops on the Serbian frontier and the provocative language of the Viennese newspapers have led to renewed excitement and feeling in Servia.

AUSTRIAN TROOPS PROVOKE SERVANS

The newspaper Pravda, voicing the prevailing irritation, says: "If Austria declares war with Servia it will come. It will be the most bitter fight in history. Every Servian, man and woman, young and old, will take part in it and Austria will have to exterminate the entire Servian nation before conquering it."

Austro-Hungarian authorities have stopped at Fiume the steamer Hegesau with a cargo of 800 tons of flour, destined for the Serbian army at Durazzo. It is announced that Austria intends to seize the steamer for the use of her own army, thus creating a situation similar to that brought about by the stoppage by Turkey of Servian guns.

Battle Continues at Scutari. Owing to the refusal of the governor of Scutari to accept notification of the armistice communicated through the German minister, hostilities continued there, according to a Cetinje dispatch. It is considered probable that the governor's refusal meets the wishes of the Montenegrin government, which hopes thereby to obtain Scutari by force of arms.

Saloniki Dispatch says the condition of the refugees there is becoming worse each day. Thousands are without shelter and smaller and other maladies are widespread.

TURKS MASSACRE MORE CHRISTIANS

Villagers Refusing to Pay Ransoms Are Killed—Troops Advance Women and Children.

Constantinople, Turkey, Dec. 9.—Letters received from Gallipoli report terrible excesses by the Turkish troops in that district. The telegraph lines have been cut beyond Gallipoli and the military authorities, it is alleged, held the Christian villages responsible and ordered a detachment of troops to punish the residents.

The troops burned the houses, held many of the villagers for ransom, massacred those who refused to pay, assaulted the women and carried off a wholesale pillage. The villages of Malgara, Koshan, Karadall, Alechi, Grabinar and Examile were practically destroyed.

The authorities at Janina report that the Turkish troops in that region of the Monastir army, have reached there with artillery and ammunition. The Turkish troops are reported to have killed many of the villagers and carried off a wholesale pillage. The villages of Malgara, Koshan, Karadall, Alechi, Grabinar and Examile were practically destroyed.

Washington, D. C., Dec. 9.—In a speech today in the senate upon his resolution for a constitutional amendment that would provide a single six year presidential term, senator Works, of California, identified since his entry into the senate with the "progressive" Republican faction, made a strong criticism of Theodore Roosevelt and the progressive party for their affiliation with George W. MONEY TRUST PROBE RESUMES HEARINGS

Washington, D. C., Dec. 9.—In a speech today in the senate upon his resolution for a constitutional amendment that would provide a single six year presidential term, senator Works, of California, identified since his entry into the senate with the "progressive" Republican faction, made a strong criticism of Theodore Roosevelt and the progressive party for their affiliation with George W. Perkins and other representatives of large corporations. Senator Works declared both Roosevelt and Taft deserved defeat. He asserted that Roosevelt, when president, had withheld action against the Harvester trust with the natural result that Mr. Perkins had been one of the chief Roosevelt backers in the fight this year for the progressive nomination and with equal emphasis he declared that president Taft had "lost the respect and good will of many good people by going upon the stump against Col. Roosevelt."

SECRETARY OF WAR CONDEMNS 'MISPLACED SENTIMENTALITY' FOR FILIPINO.

Washington, D. C., Dec. 9.—Unsparring condemnation of those who would, from misplaced sentimentality or lazy indifference, cast the Philippines upon the world in the state of helplessness and before they had acquired the full benefit of American civilization, is a strong feature in the annual report of secretary of war Stimson. Many other subjects of interest are treated in the report, such as the relations of the national guard to the army, the improvement in the army tactical methods, the adequacy of the present reserve law, the crying need of citizenship for the Porto Ricans, the conservation of the national water powers in navigable streams and the advisability of amending the Panama canal tolls act so as to reimpose tolls on American coastwise shipping.

WANTS CANTEN IN THE ARMY AGAIN

Dealing first with purely military subjects, the secretary states that the army of the United States at the beginning of the present fiscal year was \$3,305, an increase during the year of 1909 officers and 734 enlisted men. He says the spirit of the personnel of the army continues to improve, attributable not only to the work of the service schools and the general staff, but to the practical opportunities afforded by the recent maneuvers and the organization of the army.

Unfit officers are speedily discovered under the searching tests of field conditions. "One of the surest ways of getting rid of the dead wood of our army is to work it as far as possible, under the application of modern military training," the secretary declares.

The Mexican Border Patrol. Relative to the Mexican border patrol, the secretary tells of the work of the regular cavalry belonging to the United States army, in deem it proper to call attention to the fact that the brunt of this entire work fell upon the cavalry, and that during the year the cavalry performed a long and arduous duty, and that during the year the cavalry performed a long and arduous duty, and that during the year the cavalry performed a long and arduous duty.
